

One Stop Knowledge Hub

Vision

Building disaster resilience through knowledge and information exchange, innovative learning and technology transfer for community of practice and beyond

To serve the community of practice in Asia-Pacific on disaster preparedness and emergency response

Mission

Services

E-Learning

Knowledge Management Portal

Discussion Portal

Disaster Event Reporting and Ground Truth information apps

Events Dashboard

Online Database of Experts

Social Media

Objectives

To establish a knowledge management platform for exchange of information and knowledge on disaster preparedness and emergency response

To facilitate efficient and timely communication between different networks within Asia-Pacific and across the region

To facilitate the access to information and knowledge products

To develop and promote knowledge products such as, good practices, lessons learned, guidelines, tool-kits etc., for disaster preparedness and emergency response

To facilitate information exchange on hazard monitoring and event reporting through ground truth information by members and stakeholders, especially local communities

To create and maintain an online database of experts on disaster preparedness and emergency response

To be an open, interactive, participatory and transparent medium for knowledge networks and communities of practice ranging from Government Agencies to Civil Society Organizations
