

Guidelines for canteens in schools to prevent COVID-19

At entrances to the canteen, soap counters for washing hands are provided.

Keeping a physical distance of at least 2 meters or 6 feet, and marking seats and queue spaces with a safe distance.

The canteen should schedule different lunch shifts for students in order to limit the number of people and traffic.

Regularly clean the floor, canteen facilities, and eating utensils.

Food stalls and food services should provide freshly cooked food and warm the food every two hours.
