REGULATIONS FOR BEACHES

Always observe yourself. If you are coughing, sneezing, or have fever or mucus, you should go to see the doctor immediately.

Wear a face mask all the time when you are in the beach area

Wash your hands with soap and water or alcohol sanitizer before entering and after leaving the beach.

Keep a distance from others at least 1-2 meters, both on the beach and in the water. Refrain from shouting while in the water or on the beach, to reduce droplet spread.

The at-risk groups of people, such as the elderly and persons with respiratory diseases, should avoid congested times or any crowded environment.

Follow the regulations and measures in each place strictly.
